REPORT NUMBER #RC374534	TESTING ORDERED 28-08-2026 SAMPLE RECEIVED 02-09-2026
-----------------------------------	--

CLIENT	Peptide Kliniek	TESTS REQUESTED Analytical testing for identity and quantitative content, performed in accordance with standardized laboratory procedures.
SAMPLE	KPV Oral	
MANUFACTURER	https://peptidekliniek.nl	
BATCH / LOT	23649739	
SAMPLE DESCRIPTION	Testing of a 500MCG	

ANALYSIS RESULTS

ANALYSIS	RESULT	PLAIN-ENGLISH MEANING
Identity (LC-MS / MS)	MATCH	Confirms whether the expected compound was detected in the submitted sample.
Purity (HPLC-UV)	—	The share of the measured analytical profile assigned to the target compound.
Quantity (ASSAY / qNMR)	500.71 mcg 501.44 mcg	The measured amount of target compound present in the submitted sample.
OVERALL ASSESSMENT	MEETS SPECIFICATION	PASS

	HOW TO READ THE RESULT Identity tells you what it is. Purity describes the measured profile. Quantity tells you how much was measured. Important: purity and quantity are different values. High purity does not confirm the labelled amount.
VERIFY THIS REPORT Visit the verification website and enter the unique verification key below. VERIFICATION KEY 66487658	WHY VERIFY? Verification confirms this report was issued by our laboratory and has not been altered. ✓ Confirms authenticity ✓ Protects against fraud ✓ Links to our official records
